BUSINESS TERMS

When sending your first charge order, if possible, send us the name and address of someone with whom you already have a charge account. This saves time.

NOTICE TO CUSTOMERS OUTSIDE OF THE UNITED STATES

In remitting for purchases at the time of ordering or when paying accounts, by reason of the exchange, we ask that you please send P. O. Money Order in U. S. funds or a check or draft on a New York or Phila. Bank in par U. S. funds.

REGARDS C. O. D. SHIPMENTS

Goods can be sent C. O. D. (with the exception of perishable items, which include plants and cold-storage bulbs; these cannot be sent C. O. D.). No C. O. D. shipments for any kind of goods can be made by express or freight out of town unless a partial remittance accompanies the order. No C. O. D. orders where the amount is less than 50c., except in the following zone in Philadelphia: Market Street Ferry, to Sixteenth Street, Pine Street, to Vine Street C. O. D. orders outside of this zone in our delivery limits must amount to \$1.00 or more. During April no orders C. O. D. in their entirety can be accepted.

SHIPPING INSTRUCTIONS

Always state by what method you want goods forwarded, otherwise we will ship according to our best judgment.

PACKING CHARGES

No charge is made for boxes, packing or bags, except for two-bushel seamless sacks, which are returnable for credit at the market price as charged.

PARCEL POST SHIPMENT AT OUR EXPENSE AS FOLLOWS

We pay postage charges on all orders for vegetable and flower seeds, provided the order calls for packets, ounces, quarter-pounds and pounds (beans, corn, peas and mixed grass seeds, bulbs, plants and sundries are not included). If these are wanted by mail, remit for postage according to rate of postage from Philadelphia to your post office.

Parcels Post weight limits are 70 lbs. in 1st, 2d and 3d zone; in all other zones 50 lbs.

IMPORTANT NOTICE—PLEASE READ

Henry F. Michell Company give no warranty, expressed or implied, as to the description, purity or productiveness of any seeds, plants and bulbs they send out, and they cannot be in any way responsible for the crop. If the customer does not accept the goods on these terms, they can be returned at once and no sale has been made.

Prices are subject to any advances over present prevailing freight rates, customs duties or war tax, and all deliveries are subject to delay, restrictions, embargoes, crop shortages and all conditions beyond our control. All quotations are made and all orders are booked subject to the above conditions.

Merchandise to be credited must be returned within 5 days in good order free of expense to us.

2 MICHELL'S POT-GROWN STRAWBERRY PLANTS

EXTRA SELECTED STOCK—Strong and Well Rooted. Will Yield a Full Crop of Berries Next Season. Ready Now.

The time of shipment is from July 1st to September 15th. The advantages in planting pot-grown strawberry plants are realized by a full crop of berries the following year. Our plants are carefully grown in clay pots and prior to shipment are transferred with the original ball of earth at their roots to substantial paper pots in which they are forwarded, thus insuring the buyer getting them in first-class order and reducing the transportation charges about 25 per cent.

CULTURAL NOTE ON STRAWBERRIES

Strawberries delight in good rich soil that has had plenty of manure added to it. The plants should be set 12 to 15 inches apart in rows 2 feet apart. A row 100 feet long requires approximately 75 to 100 plants or about 14,500 per acre. If the weather is dry, when planting, water well at the time and for a few days thereafter, if it is possible. Press the soil well around the ball, when planting, and keep the soil well cultivated, cutting off all runners that may form. At the approach of permanent winter it pays to cover the entire bed to a depth of 2 inches with clean straw or salt hay. This protects the plants during severe weather. Do not use leaves, as they hold the moisture and cause damage to the plants in winter. At the approach of spring, rake the covering from the plants proper and leave it between the rows; this will serve as a mulch during the summer, protecting against drought, and also keeps the fruit more free from sand; at the same time to a large measure controls the growth of weeds.

EARLY VARIETIES

Early Jersey Giant (Perfect). Pre-eminently the finest of the early varieties. It is brilliant scarlet-crimson in color, and exceptionally firm, by far the firmest of all early sorts. Berries very large, conical with pointed tip; has delightful aroma and rich, mild strawberry flavor. A very heavy yielder.

Early Ozark (Perfect). Among the very first to ripen and the berries are of fairly good size; bright, crimson color; slightly conical; quite firm and of excellent quality. A strong grower and a heavy yielder.

Senator Dunlap (Perfect). This grand Strawberry will please the most critical person. One of the first to yield and continues well into the height of the season. It cannot be recommended too highly.

MID-SEASON VARIETIES

Big Joe (Perfect). The merits of this splendid variety are great vigor of plant, splendid root system, exceptional productiveness, large size of fruit, excellent flavor, and length of bearing season. The berries are perfect beauties, of very uniform, conical shape, rich red in color. In size the berries are not surpassed by those of any other variety grown, while the flavor is superior to that of most large fruited sorts. The plants root very deep, the roots going 10 to 12 inches in the ground, and they are but little influenced by droughts.

Brandywine (Perfect). The finest of all mid-season sorts; it has not a single defect. The plants are of extra strong constitution and growth, doing well everywhere. Fruit extra large, heart-shaped; color, bright, rich red.

Bubach (I). A fine old standard variety, especially popular in the middle and northern States. The blossoms are imperfect and must be planted with some perfect flowering variety in order that they may be pollenized, otherwise they will produce no fruit.

A husky developed specimen like this can't fail but give you satisfaction

MID-SEASON VARIETIES (Continued)

Glen Mary (Perfect). One of the best of the older varieties, as it still keeps its place among the prominent strawberries. The fruit is very large but rather irregular, somewhat like Sharpless. It is a great drought resister, ripening a full crop of luscious berries in the driest weather.

Heritage (Perfect). This is truly a giant strawberry, it being almost impossible to put a whole berry at a time in one's mouth. It is rather irregularly shaped but of a beautiful crimson color. The plants and foliage are entirely distinct which makes it stand out above all other sorts.

Rewastico (Perfect). The berries are a light cardinal red, uniformly large and regular in shape. The fruit is firm enough to carry to distant markets in good condition. The quality is extra fine. Blossoms are perfect and rich in pollen.

Price of Pot-grown Strawberries on this page \$1.25 per dozen; per 100, \$7.00; \$60.00 per 1000.

NOTE—About October 1st we can furnish layer plants of any of the above varieties at 60c. per dozen; 25 for 75c.; \$1.40 per 50; per 100, \$2.50; \$15.00 per 1000. If wanted by Parcel Post add 10c. per doz. or 20c. per 100 for postage. Larger quantities travel best by express.

MICHELL'S POT-GROWN STRAWBERRY PLANTS ³

LATE SEASON VARIETIES

See Special Cultural
Note on Page 2

First Quality (Perfect). Berries are very large, pointed, and of a dark red color. Plants are very vigorous and healthy. Blossoms are perfect, strong pollenizers, making it a good variety to plant with imperfect varieties. A good variety for the home as well as for shipping purposes.

Gandy (Perfect). This variety is known to most every berry grower as one of the best late sorts. It is very solid and large, and of a beautiful crimson color; especially good for family garden planting.

Sharpless (Perfect). One of the old timers, but a variety of real merit; a tremendous cropper; plants very vigorous and hardy.

Stevens' Late Champion (Perfect). "Very large, fine flavored, bright color, good shipper, heavy yielder, good fruit stem." This berry has averaged 7556 quarts per acre, netting \$666.96 per acre. It has been tested on all kinds of soils and will grow successfully where any strawberry will grow. It will stand a drought better than any other berry ever grown in this section. It has never shown any sign of rust.

Price of Pot-grown Late-Season Varieties Strawberries, \$1.25 per dozen; per 100, \$7.00; \$60.00 per 1000.

NOTE—About October 1st we can furnish layer plants of any of the above varieties (except as noted) at 60c. per doz.; 25 for 75c.; \$1.40 for 50; per 100, \$2.50; \$15.00 per 1000. If wanted by Parcel Post add 10c. per doz. or 20c. per 100 for postage.

MICHELL'S SPECIAL GRADE BONE MEAL

An excellent fertilizer to use when planting strawberries; about a teaspoonful to a plant. 25 lbs., \$1.25; \$2.25 per 50 lbs.; 100 lbs., \$4.25; \$8.00 per 200 lbs.

Stevens Late Champion

Type of Everbearing Strawberries

MICHELL'S AUTUMN FRUITING OR EVER-BEARING STRAWBERRY PLANTS

(Pot Grown)

This type, while producing its main crop of berries with the general sorts, continues uninterruptedly to mature its fruit, until checked by hard frosts; it has actually been known to bear strawberries until Christmas, when the weather is open and mild. In order to get the greatest crop of berries late, the blossoms should be kept cut off until August 1st, so as to conserve the energies of the plants for the fall crop. The plants must not be allowed to suffer for water in the fruiting season and a mulch of well rotted cow manure will be found of great advantage.

Peerless (New). This variety is claimed to be the best fall-bearing variety, producing right up to heavy frosts, as the fruit is protected by the large vigorous foliage.

Progressive. The berries are medium in size and delicious in quality. You can get fruit a few weeks after the plants are set and they continue to bear until freezing weather.

Superb. The fruit is large, firm and of fine quality. In addition to its value as a fall bearer, Superb will bear an excellent crop of berries in the spring. They look well and ship well.

Price of Everbearing Strawberry Plants (Pot-grown), \$1.25 per dozen; per 100, \$7.00; \$60.00 per 1000. **Layer Plants** ready in October, 75c. per doz.; per 25, \$3c.; \$1.50 for 50; 100 for \$2.75; \$22.50 per 1000.

Pot-grown Strawberry Plants can best be shipped by express. No Plants sent C. O. D.

(oe)

MICHELL'S SEASONABLE VEGETABLE PLANTS

Extra Strong Celery Plants

(Ready About July 10)

A WORD ON CELERY CULTURE.—Celery delights in a good, rich, moist soil. Locations where the soil may become dry should be avoided. Nothing is more beneficial or so little work as the watering of celery during periods of drought. After it has been transplanted and made some growth, the plants should be set in permanent rows 6 to 8 inches apart in the row. Many private gardeners prefer to use the two-row system of trenches; it will be found very advantageous to work. If the idea of the market gardener is carried out, the celery is planted in single rows about 2 feet apart, 6 or 8 inches apart in the row. By the former method the celery is usually banked up to blanch until almost entirely covered with soil; the top is then covered with leaves or other litter as winter approaches. In the single-row system the celery is banked up gradually to blanch, and after this process is over, at the approach of winter it is dug up and laid in shallow trenches after being cleaned. Storing for winter is done by covering it with waterproof celery paper and topping off with soil or leaves. The celery may thus be gotten out for market during the severest weather. Good cultivation is highly necessary during the growing period.

French Golden Self-Blanching. An early sort. The heart is a rich golden-yellow, with light yellowish-green outer leaves.

Giant Pascal. One of the largest stalked kinds. It is in its prime for use during February and March, and can be used well up into spring.

White Plume. The White Plume is unsurpassed for fall and early winter use, requiring very little earthing to blanch it.

Winter Queen. This variety grows a very thick, solid and heavy stalk, and has a large heart. It is a close, compact grower, and when blanched is a creamy-white color.

Price of any of above Celery Plants, 75c. per 100; 500 for \$3.25; \$6.00 per 1000.

We cannot supply less than 50 celery plants of any one variety.

If wanted by Parcel Post allow 4 lbs. weight per 100 for postage.

Brussels Sprouts Plants

(Ready from July 1st to August 15th)

Matchless Improved. The plants should be well cultivated and kept free from insects. When heads begin to crowd, the lower leaves should be broken from the stem of the plant to give them plenty of room. 25 for 25c.; 75c. per 100; per 1000, \$6.00.

If wanted by Parcel Post add 10c. per 100 for postage.

Perfection Drumhead Savoy Cabbage

CABBAGE PLANTS

Late Flat Dutch. A short stemmed, large, flat-headed variety; very solid; keeps the entire winter when buried in cellars or pits.

Red Dutch Drumhead. This cabbage is very sweet and should be used more largely. It is an excellent winter keeper.

Danish Ballhead. Unequaled for keeping qualities, massiveness and weight of heads.

Price of any of above Cabbage Plants, 25 for 25c.; 60c per 100; per 1000, \$4.00.

We cannot supply less than 25 cabbage plants of a variety.

If wanted by Parcel Post add 15c. per 100 for postage.

THE BALL CELERY BLEACHER

A practical, inexpensive device for bleaching celery early, made of stiff, heavy paper. If the tubes are to be left on the plants all winter and the soil drawn around them, you get celery clean and sweet.

MICHELL'S RELIABLE BULBS

5

FOR SUMMER AND EARLY AUTUMN PLANTING

Our General Bulb Catalog will be ready in September, and will contain a complete list of Bulbs for fall planting.

Easter in 1921 Comes on March 27th

AMARYLLIS

One of the most gorgeous showy house plants, giving splendid satisfaction, not only because of their requiring little care, but of their everlasting nature and tendency to increase.

Cultural Directions.—Place bulbs in live moss, only moderately moist, near window of a warm room. Watch the bulbs carefully, and when the first sign of growth appears through the top, get a six-inch pot and be ready to pot them up. The soil to be used should be fairly rich and when the bulb is set, most of it should be above the soil. Be moderate in watering first, but increase as growth increases, then place in a warm, light room near the window.

Belladonna. A beautiful bright pink. 40c. each; doz., \$4.00; \$30.00 per 100.

Formosissima. Crimson. 25c. each; per doz., \$2.50; \$17.50 per 100.

Johnsoni. Crimson, striped white. Large bulbs, 60c. each; doz., \$6.00.

White Calla Lily

CALLA LILY BULBS

(Ready in September)

Callas require good, rich soil and plenty of warmth and water to make them thrive. Plant Callas indoors only.

GODFREY DWARF EVERBLOOMING CALLA (New)

This comparatively new calla has proven an excellent one; its character is exactly like the *Æthiopica* or regular variety, except it is of much dwarfer habit and freer bloomer; very desirable as a pot plant. Large blooming size bulbs, 25c. each; doz., \$2.75; \$17.50 per 100.

CALLA ÆTHIOPICA

	Each	Doz.	100
White, Monster Size, 2 to 2½ in. diam....	\$0.50	\$5.00	\$35.00
“ Mammoth Size, 1¾ to 2 in. diam..	.30	3.00	20.00
“ Medium Size, 1½ to 1¾ in. diam..	.20	2.00	12.50
“ First Size, 1¼ to 1½ in. diam....	.15	1.50	10.00

(Other varieties of Callas ready in October)

SPECIAL NOTICE.—Owing to the new Plant Quarantine which took effect June 1, 1919, prohibiting the importation of a number of bulbs, our list of miscellaneous bulbs is small to what it otherwise would be.

Purity Freesia

FREESIA “PURITY”

This grand type supersedes all the old varieties of Freesias. The flowers are almost twice the size of the regular type; they also differ somewhat, being a pure glistening white; the stems are often 15 inches long and very wiry, rendering it a most valuable cut flower. Each bulb will produce 3 or 4 flower stems.

	Each	Doz.	100	1000
First Size Bulbs.....	\$0.04	\$0.35	\$2.00	\$17.50
Mammoth Size Bulbs.....	.05	.50	2.75	22.50

Jumbo Bulbs10	1.00	6.00	50.00

TESTIMONIAL ON MICHELL'S BULBS

The bulbs received from you were excellent—could not have asked for anything better. As to your business methods, you are certainly O. K.

CHAS. E. BROOK.

TESTIMONIAL FROM JAPAN

The bulbs arrived here this morning per parcel post. They were all in perfect condition. Let me express my thanks for the careful execution of my order.

Yours truly,

F. OYAMA, 49 Fushi Midai, Daireu.

MICHELL'S RELIABLE BULBS

For Summer and Early Autumn Planting

FRENCH ROMAN HYACINTHS

(Ready in August)

French Roman Hyacinths afford a continuous supply of bloom from early winter until late in spring if planted in succession (two weeks apart). They are very fragrant.

They are easily grown in pots or pans. The bulbs, if potted in August or September, the pots plunged in the open ground for a month, until the bulbs are well rooted, and then brought in the house, they can be had in flower in November or December, and a continuous supply of these delightful flowers may be had, by bringing in a few pots or pans of the rooted bulbs at intervals of about 2 weeks. The bulbs should be planted quite close together, a 6-inch pot or pan will be sufficiently large enough for six bulbs. They are not hardy and are not suitable for outdoor planting.

White, Extra select, size 12-15 cm..	} Crop of these is uncertain; please write for prices.
" Mammoth, 13-15 cm.	
" Monster, 15 cm. and over..	
Light Pink	
Light Blue	
White Italian. Late; large spikes..	

Parcel post weight, 1 lb. per doz.; per 100, 8 lbs.

TESTIMONIAL ON MICHELL'S BULBS

Commissioners of Luzerne County
Wilkes-Barre, Pa.

The bulbs received from you last year were first-class in every way and gave results that were very much appreciated by the Commissioners as well as the public in general.

N. C. KEELY.

Court House, Wilkes-Barre, Pa.

Michell's Monster White Roman Hyacinths

MICHELL'S EARLY NARCISSUS

(Polyanthus Type) (Ready in August)

This class of Narcissus is a most interesting one. They may be grown in water and pebbles like Chinese lilies, but they are equally suited for growing in soil. The flowers are produced in clusters, like the illustration, and are delightfully fragrant. Not suitable for outdoors. Parcel Post Weight of Polyanthus Narcissus, 2 lbs. per doz.; per 100, 12 lbs.

Double Roman. White perianth, with an orange and yellow suffused cup, very free flowering and early. 5c. each; per doz., 50c.; \$3.25 per 100; per 1000, \$27.50.

Gloria. A showy type, with white perianth and orange yellow cup. 10c. each; doz., 80c.; \$4.50 per 100; per 1000, \$40.00.

Grand Monarque. Large, broad, white perianth with a primrose-yellow cup; a very striking flower. 6c. each; per doz., 60c.; \$4.00 per 100; per 1000, \$32.50.

Grand Primo. Large white perianth with yellow cup. 8c. each; per doz., 85c.; \$6.00 per 100; per 1000, \$55.00.

Grand Soleil d'Or (often called "Yellow Paperwhite"). Rich yellow, with deep red cup. For cutting this is a fine variety. 10c. each; per doz., \$1.00; \$7.50 per 100.

Paper White Grandiflora, First Size Bulbs. This is quite a specialty with us; of it alone we import over two million bulbs. It is a pure white flowering sort; used extensively for forcing, as it can be brought into bloom in 8 weeks' time; the stems are very long and it is excellent for bunching. 6c. each; per doz., 60c.; \$3.50 per 100; per 1000, \$30.00.

Paper White Grandiflora, Mammoth Bulbs. 8c. each; per doz., 70c.; \$4.50 per 100; per 1000, \$40.00.

Paper White Grandiflora, Giant Bulbs. 10c. each; doz., \$1.00; \$6.00 per 100; per 1000, \$50.00.

White Pearl. A large pure white; very exquisite. 10c. each; per doz., 85c.; \$6.25 per 100; per 1000, \$55.00.

(See page 7 for other Early Narcissus)

Narcissus Paper White Grandiflora

6 Bulbs of a variety at dozen rate; 25 at 100 rate; 250 at 1000 rate

(oe)

MICHELL'S RELIABLE BULBS

For Summer and Early Autumn Planting

MICHELL'S TRUMPET NARCISSUS

(For Early Forcing)

Extra Early Emperor. Excellent early variety for forcing; flowers are pure golden yellow. 10c. each; doz., \$1.00; \$6.50 per 100.

Extra Early Golden Spur. For Christmas and New Year's forcing this strain is far in the lead of the regular Dutch type. Free flowering, producing rich, golden yellow blooms. 10c. each; doz., \$1.00; \$6.50 per 100.

French Trumpet Major (Christmas Flowering). A beautiful early flowering yellow variety. They force easily and can be had in flower without any trouble for Christmas. 7c. each; doz., 65c.; \$4.25 per 100; per 1000, \$35.00.

Single Narcissus, French 'Trumpet Major

LILIUM HARRISH

(The Bermuda Easter Lily)

Cultural Note—In order to obtain best results, attention to the following brief directions will assist materially: Upon receiving the bulbs, pot them immediately. Place a handful of well-rotted cow manure in the bottom of the pot and place the bulb directly on top, covering it with soil. After watering, place in an outside pit and protect from the direct rays of the sun; cover well with soil, ashes or any other suitable litter. When the bulbs have become thoroughly rooted, bring inside, in a temperature of about 60 degrees; let the plants grow slowly under a bench or some other suitable place until about 6 inches high; then place on top of the bench. About two months before Easter they can be brought into a warmer temperature and gradually forced into flower and height at one time. An occasional application of liquid cow manure, starting about six weeks before flowering time, will stimulate the plant wonderfully. **Thorough rooting is the most essential point.**

MICHELL'S "SPECIAL BRAND" LILIUM HARRISH

(True Bermuda Easter Lily)

Noted for freedom from disease, uniformity and free flowering qualities.

MICHELL'S RELIABLE BULBS

FOR SUMMER AND EARLY AUTUMN PLANTING

LILIUM CANDIDUM

(Madonna Lily)

(Ready in August)

This variety is sometimes called St. Joseph's, Madonna, or Annunciation Lily. One of the most popular and satisfactory of the American garden lilies. Pure waxy white flowers produced on straight stems bearing anywhere from 10 to 30 blooms of good size and substance; delightfully fragrant. Effective planting is the result of massing them in clumps or borders. Our bulbs are grown in Northern France, where they have a reputation of growing the finest in the world. To insure absolute success, plant the bulbs as early as possible—September preferred—6 inches deep, imbedded in sand and placed on their side; height, 4 feet; blooms in June.

MICHELL'S RELIABLE GRASS SEEDS

All Prices subject to
Market Changes

Possibly no one in the United States specializes more in grass seeds for lawns, pleasure grounds, golf courses, putting greens, pasture and hay fields than we. Our purchases in this commodity direct from the growers at home and Europe amount to many thousand pounds annually. Our grass seeds are rigidly tested for purity and germination at the growing point, in the laboratories of the United States Department of Agriculture and by ourselves, and will be found of highest average. We make special formulas to suit various soils, climatic and local conditions. Our grass mixtures as sold have been based on many tests and on years of careful study, they are properly blended and will give splendid satisfaction. Our grass seed sales, amounting to more than a half million (500,000) pounds per year, enable us to get the choice of the Grass Seed Market.

Quantity to sow for Lawns. You cannot sow too much, the more the better, it means a quicker, more satisfactory and lasting result. We recommend, on new ground, for average mixtures, to sow as follows: One quart on 100 sq. feet (10x10); 4 qts. on 600 feet (20x30); 1 peck on 1500 sq. feet (30x50); 1 bushel on 7000 sq. feet (70x100); 6 to 8 bushels per acre for best effects.

MIXTURES FOR LAWNS

Michell's Clover Lawn Grass. The increasing demand for a grass seed mixture, containing a larger proportion of White Lawn Clover, induced us to offer this brand. After extensive trials we have produced a mixture of grasses, mixed with a most liberal quantity of best re-cleaned white clover. Especially suited to take firm hold and grow quickly on hard, worn out or burned spots; splendid for seashore lawns. Pint, 30c.; 50c. per qt.; 2 qts., 90c.; \$1.75 for 4 qts.; peck, \$3.00; \$12.00 per bush. (30 lbs.); 100 lb. lots and over, 37½c. per lb.

Michell's Top Notch. The best Lawn Mixture in existence, and can justly be called the top-notch of quality. It is a perfectly blended combination of quick growing, very compact, fine bladed grasses, that will produce a perfect lasting turf in a few weeks. Peck, \$2.25; \$4.25 per ½ bush.; bush. (25 lbs.), \$8.00; 100 lb. lots and over, 31c. per lb.

Michell's Green Velvet. Produces a perfect lawn in 4 to 5 weeks' time. Pint, 20c.; 30c. per qt.; 2 qts., 50c.; 90c. for 4 qts.; peck, \$1.50; \$6.00 per bush. (20 lbs.); 100 lb. lots and over, 28½c. per lb.

Michell's Evergreen. The standard Lawn Mixture in the United States. Pint, 15c.; 25c. per qt.; 2 qts., 45c.; 75c. for 4 qts.; peck, \$1.35; \$5.00 per bush. (20 lbs.); 100 lb. lots and over, 24c. per lb.

Michell's Shaded Lawn Grass. Will produce perfect swards in the most densely shaded places. Pint, 20c.; 30c. per qt.; 2 qts., 55c.; \$1.00 for 4 qts.; peck, \$1.75; \$6.50 per bush. (20 lbs.); 100 lb. lots and over, 30c. per lb.

Fairmount Park Lawn Seed. Sow 4 bu. to the acre. Qt., 20c.; 35c. for 2 qts.; 4 qts., 65c.; \$1.00 per peck; bush. (15 lbs.), \$3.75; 100 lb. lots and over, 22c. per lb.

Michell's Seashore Formula Grass Seed. Contains such grasses as thrive in salt air regions. Sow 4 bu. to the acre. Pint, 20c.; 30c. per qt.; 2 qts., 55c.; \$1.00 for 4 qts.; peck, \$1.75; \$6.50 per bush. (20 lbs.); 100 lb. lots and over, 30c. per lb.

Michell's Terrace or Embankment Grass Seed. Sow 4 bu. to the acre. Qt., 30c.; 55c. for 2 qts.; 4 qts., \$1.00; \$1.75 per peck; bush. (20 lbs.), \$6.50; 100 lb. lots and over, 30c. per lb.

MIXTURES FOR LAWNS (Continued)

Southern States Lawn Grass Seed. Made up especially for dry, hot localities, especially suited to the Southern States. Qt., 25c.; 45c. for 2 qts.; 4 qts., 75c.; \$1.25 per peck; bush. (15 lbs.), \$4.50; 100 lb. lots and over, 28c. per lb.

Special Sod Grass Seed. Producing a heavy sod in a short time. Qt., 25c.; 45c. for 2 qts.; 4 qts., 75c.; \$1.25 per peck; bush. (15 lbs.), \$4.50; 100 lb. lots and over, 27½c. per lb.

Woodlands Lawn Mixture. For sowing in dense shade among trees, in woods, etc. Qt., 30c.; 60c. per 2 qts.; 4 qts., \$1.10; \$2.00 per peck; bush. (20 lbs.), \$7.00; 100 lb. lots and over, 32c. per lb.

MIXTURES FOR PLEASURE GROUNDS

Michell's Fair Greens Mixture Golf Course. Composed of short-growing, deep-rooted varieties, resisting plenty of wear. Golf courses, to retain their permanency, should receive additional sowings during the season. Sow 6 bu. per acre. Qt., 30c.; 50c. for 2 qts.; 4 qts., 85c.; \$1.60 per peck; bush. (20 lbs.), \$6.00; 100 lb. lots and over, 27½c. per lb.

Michell's Putting Greens Mixture. A quick-growing mixture of short, thin-bladed grasses, over which the ball can roll without resistance. We do not recommend less than 50 to 75 lbs. to a green 75 feet square. Qt., 50c.; \$1.75 for 4 qts.; peck, \$3.25; \$12.00 per bush. (25 lbs.); 100 lb. lots and over, 45c. per lb.

Michell's Teeing Grounds Mixture. Used on golf courses or in places where a tough, resisting turf is wanted. Qt., 25c.; 45c. for 2 qts.; 4 qts., 85c.; \$1.60 per peck; bush. (20 lbs.), \$6.00; 100 lb. lots and over, 27½c. per lb.

Michell's Tennis Court Grass Seed. Tennis courts need grasses of a hardy nature, of fine leaf and close, compact growth. Our mixture will be found particularly adapted for the purpose. Qt., 30c.; 50c. for 2 qts.; 4 qts., 85c.; \$1.60 per peck; bush. (20 lbs.), \$6.00; 100 lb. lots and over, 27½c. per lb.

GRASSES IN SEPARATE VARIETIES

All Strictly Recleaned and Carefully Tested for Purity and Germination
Prices Subject to Market Changes

We handle the best recleaned grass seeds in separate varieties. Some persons like to do their own mixing or prefer to sow only one kind of grass; we make no charge for mixing.

WESTERNWOLTH'S RYE GRASS

A New Forage and Pasture Grass of Extraordinary
Productiveness

This new grass was discovered in Holland in 1906. It has been tried out in various parts of Europe with splendid results. It surpasses the Italian Rye Grass in rapidity of growth and tonnage; on average soil, top dressed with Nitrate of Soda, it will yield five or six cuttings a year. It is a splendid grass mixed with Red Clover for hay or pasture, or for a quick supply of green food for horses and cows. Its germination is high and the quality of the feed is strictly A1. Seed sown in Europe, April 20th, was in full flower head June 25th. Our stock has been procured from the introducer, and we take pleasure in recommending it as one of the best forage plants. The full grown height is about 3½ feet; it is hardy, and when sown will last quite a while. It requires 75 lbs. to properly sow an acre. 40c. per lb.; bush. (24 lbs.), \$8.40; \$27.50 per 100 lbs. (oe)

MIXTURES FOR MISCELLANEOUS PURPOSES

Michell's Permanent Pasture Grass Seed. The old prevalent method of sowing timothy and clover has been found not only costly, but too short-lived to answer the purpose. The old custom has given way to the new, which is the sowing of a mixture of permanent grasses. Michell's Permanent Pasture Grass Seed is composed of about 10 of the best growing and most nutritious grasses and clovers for stock feeding or grazing. One sowing will last many years, although we advise additional sowing each autumn, just previous to which a light harrowing is recommended to give the grass a quick hold. Sow 3 to 4 bu. per acre on new land or 2 bu. on established pastures. Per qt., 25c.; 75c. per 4 qts.; peck, \$1.25; \$4.50 per bush. (20 lbs.); 100 lb. lots or over, 20c. per lb.

Michell's Permanent Hayfield Grass Seed. While timothy is still extensively sown for this purpose, this mixture is gradually being adopted by the progressive farmer. Its main advantages are that certain grasses in this mixture will grow better in varying conditions of soil, thus giving a full crop of hay on land that otherwise might produce but a half crop of timothy and clover. Our formula is the outcome of thorough trials in every kind of soil. Sow 3 to 4 bu. per acre on new lands or 2 bu. on established fields. Per qt., 25c.; 75c. per 4 qts.; peck, \$1.25; \$4.50 per bush. (20 lbs.); 100 lb. lots or over, 20c. per lb.

Michell's Poultry Yard Grass Seed. Chickens love grass and should be placed where they can get it as much as possible. We put plenty of clover seed in this mixture, as it is very nutritious and the fowls relish it. Per qt., 25c.; 40c. per 2 qts.; 4 qts., 75c.; \$1.25 per peck; bush. (15 lbs.), \$4.50; 100 lb. lots or over, 27c. per lb.

WHITE CLOVER

Choice recleaned for sowing on lawns, pastures, etc. Sow 10 to 12 lbs. per acre. Per oz., 10c.; 25c. per ¼ lb.; ½ lb., 45c.; 85c. per lb.; 5 lbs. for \$4.25; \$8.00 per 10 lbs.; bush. (60 lbs.), \$43.00; \$75.00 per 100 lbs.

PRICES ON GRASSES SUBJECT TO MARKET CHANGES

Note—If grasses are wanted by parcel post, allow for postage when remitting.

PRICES SUBJECT TO MARKET CHANGES

Alfalfa, or Lucerne (*Medicago Sativa*). The most valuable forage crop on the American farm today, and can be truly termed a mortgage lifter. It is sown during May, August and September. Our special Circular on Alfalfa explains this fully, and is free for the asking. Sow not less than $\frac{1}{2}$ bushel (30 lbs.) per acre, preferably with no other crop. Our seed is always over 99 per cent, pure, and will invariably give the best of results. **Choice Non-Irrigated Western Grown Seed.** Price on application.

Grimm Alfalfa. Claimed to be hardy in any and all regions, a heavy yielder and of deeper rooting ability. Highly recommended by various State Experiment Stations. It requires only about 10 lbs. of Grimm Alfalfa to properly seed an acre, on account of its great root system and spreading habit. Price on application.

Alsike, or Swedish Clover (*Trifolium Hybridum*). One of the best for mixing with timothy; it is perfectly hardy in every climate or soil condition and seldom has to be reseeded. Under ordinary conditions it grows from 1 to 2 feet high; is sown early in the spring or late summer and early autumn. It is as nutritious as red clover and is rapidly coming to the front as a valuable farm crop. The flower resembles the white clover except that the head is larger and has a red tinge on the edge. Sow 10 to 15 lbs. per acre alone, or 8 lbs. per acre with timothy. Price on application.

Bokhara or Sweet Clover (*Melilotus Alba*). While extensively used as a bee food, this is a valuable variety for soiling (green manure). It grows from 3 to 5 feet high, according to soil and location; can be cut as often as three times in a season if wanted for forage. Sow 15 lbs. per acre in early spring, alone, or 10 lbs. per acre with other crops. We handle only the true white flowering hardy variety. **Choice Hulled Seed.** Price on application.

Crimson Clover (*Trifolium Incarnatum*). This is used principally for soiling or green manuring, for which purposes it is highly valuable. If desired for feed, cut it just before it flowers. When desired for green manure, it should be allowed to mature; its height is from 1 to 2 feet. Sow any time from April to October, the earlier the better, 20 lbs. to the acre. If sown in early spring it can be plowed down the first year. Late summer or fall seeding is usually practiced. It is not hardy for more than one season and must be sown each year. Price on application.

Mammoth Red Clover (*Trifolium Pratense Perenne*). Sometimes called Sapling or Pea Vine Clover and English Cow Grass. This differs from the "Medium," being of a ranker growth and yielding more fodder per acre. It ripens somewhat later and is more hardy, lasting several seasons longer than the medium red clover. It also does well on poorer soils. The seed cannot be distinguished from the former. Our supply, however, is strictly reliable. Sow in early spring or in July and August, using 20 lbs. per acre alone, or with other crops 10 lbs. per acre; flowers pink. It can be cut several times in a season. Price on application.

Our Strains of Red Clover are unusually fine

Red Clover, Medium (*Trifolium Pratense*). More widely known and used than any other; used principally for hay purposes. Height from 18 inches to 2½ feet. Sow early in the spring or in late summer—July and August; if alone, 20 lbs. per acre; if with other crops, 10 lbs. per acre. A red clover field can usually be cut twice in a season. It is not hardy for a period of years, being usually resown every third season; flowers pink. Price on application.

White Dutch or Lawn Clover (*Trifolium Repens*). This is valuable for pasturage as well as for lawns; it succeeds where other clovers and grasses fail, and it seldom dies out. It can be sown at all seasons; flowers greenish white. Sow 10 to 12 lbs. per acre if alone, or 5 lbs. if sown on old turf or with other crops. 10c. per oz.; ¼ lb., 25c.; ½ lb., 45c.; 1 lb., 85c.; \$4.25 per 5 lbs.; 10 lbs., \$8.00; \$43.00 per bu. of 60 lbs.; per 100 lbs., \$75.00. Prices on White Clover subject to change.

BEANS, SOJA OR SOY

Excellent for green manuring, fodder and silo purposes. Sow 1½ bushels per acre alone, or ½ bushel Soja Beans with one bushel Cow Peas.

Mammoth Yellow (Late).

Wilson (Early). Prices on application.

BUCKWHEAT

In the locality of Philadelphia this is sown any time from June 1st to July 15th; one bushel of 48 lbs. broadcasted to the acre. It makes a very fine quality of flour, but is largely used for poultry food. For planting adjacent to game preserves it provides excellent food for the birds. The flower makes ideal bee food, while the straw is very abundant. Our seed is grown by a specialist in New York State, who procures his seed stock every few years from Japan. Any of the clover crops can be sown with buckwheat, these to mature the following season. Buckwheat frequently yields as much as 80 bushels to the acre. **Japanese.** Very early variety. Dark, large grain. **Silver Hull.** Late maturing variety; grain making whiter flour; very prolific.

Price of Buckwheat on application.

A Field of Japanese Buckwheat

2-bushel Seamless Bags for shipping Farm Seeds, are charged for at 65c. each (These are returnable for credit.) (oe)

Michell's Seasonable Farm Seeds, Etc.

BARLEY

The straw is good for green feed or when cured, as hay. The grain in the hull is excellent poultry feed. If wanted for hay it should be cut while the grain-head is in a soft or milky condition. Sow broadcast $1\frac{1}{2}$ to 2 bushels per acre from May 15th to July 1st. 48 lbs. per bushel.

Barley makes an ideal nurse crop for spring sown Alfalfa. When sown in connection with alfalfa, use $\frac{1}{2}$ to $\frac{3}{4}$ bushel per acre broadcast; when ripe, harvest as usual or cut and rake off. Beardless. New York grown stock; frequently yields 50 bushels per acre. Price on application.

KAFFIR CORN—White, for Seed

This belongs to the Sugar Cane family and has great drought-resisting qualities; the grain is used for feeding poultry and the fodder for cattle; is ideal for planting where seed corn has failed to germinate and it is too late to replant. Grows from 4 to 6 feet high, the grain being produced on the top of stalk in the shape of a brush; frequently as many as four heads of grain will be found on a single stalk. It usually ripens after the first few frosts; produces enormous crops. Can be sown as late as July at the rate of 10 lbs. per acre in drills. (Bu. 56 lbs.). Price on application.

COW PEAS

Cow Peas are one of the best, largest yielding and most nutritious of the farm crops. Cattle, sheep or hogs can be turned into a field of them and they will eat them greedily, and the stubble can be plowed under. In the latitude of Philadelphia, sow from May 1st to July 1st, two bushels per acre broadcast, or one bushel per acre in drills. For a large crop, sow the seed as late as possible, and not too thick.

Black. One of the popular varieties extensively grown. It is very prolific and matures early. It is of upright growth, consequently preferred for ploughing under or for grazing stock.

Large Black Eye. An exceedingly heavy cropper, but late to mature. In the South the seed of this variety is sold for dried peas for household use; it is claimed they are quite delicious.

Whippoorwill. Medium early; upright growing, a variety more extensively used than any other. The seed is brown and gray speckled. It is a heavy producer of both pods and fodder. Some claim this variety gathers more nitrogen than others.

Prices: These fluctuate constantly; will be quoted on request.

MILLET

Can be sown as late as July 15th and yield a tremendous crop. Is also desirable for green manuring, when it should be turned under when about 10 inches high. It makes an excellent green food for stock not allowed to pasture. If used for hay and dried it should be cut just as it matures.

Hungarian. The seed produces hay not so fine in quality as the "Golden," also fully a foot less in height. It can, however, be sown some 2 weeks later. Sow 1 bushel (50 lbs.) per acre.

Japanese Barnyard. This wonderful Millet yields possibly more fodder than any other forage plant that requires so little to sow an acre. Frequently as high as 12 tons of green food has been obtained from an acre. If sown early in May it may be cut twice in one season. Sow 12 lbs. per acre broadcast, any time from May 1st to June 15th.

Pearl (Pencillaria Spicata). A valuable fodder plant. Enormously productive. Sow in drills 2 feet apart, 10 to 12 lbs. per acre.

Tennessee Golden. This requires a longer season to mature than the other sorts; it produces a very fine quality of hay and makes a larger seed head. In good seasons it grows about 4 ft. high. Sow 1 bu. (50 lbs.) broadcast to the acre, from April 10th to July 10th.

RAPE

Dwarf Essex. An excellent green food for sheep and hogs; can be pastured 8 weeks after sowing. Sow 6 lbs. per acre broadcast or in drills from April 1st to October 1st. It produces enormous crops and is ideal green manure. Price on application.

WINTER RYE

Pennsylvania White. This makes a fine winter cover crop, being usually sown in the autumn as late as November, making a very fine yield of long, stiff straw. Winter rye will not mature if sown in spring. 56 lbs. per bu. Sow $1\frac{1}{2}$ bushels per acre. Price on application.

TIMOTHY SEED

For sowing among wheat as a second year hay crop, or for sowing alone for a first year hay crop, this is extensively used. We aim to sell the purest and highest germinating quality. 45 lbs. per bushel. Samples and quotations on request.

WINTER VETCH (Vicia Villosa)

Sometimes called Sand or Hairy Vetch. Our stock of this is the true type, being imported by us direct from Russia which will absolutely live throughout the winter. Sow from August 1st to October 1st, but the earlier the better, broadcast, 1 bushel per acre, to which we suggest adding a bushel of winter rye or wheat. In the spring it can be plowed under as green manure, or when in flower cut for hay. All stock relish it keenly. Price on application.

WINTER WHEAT (Ready about Sept. 10th)

Michell's Spraying and Insecticide Apparatus, Etc. 31

THE KEY DUSTER GUN

This device introduces, or rather makes more practical, the application of dry powder as an insecticide or fungicide. It contains a chamber into which is inserted a cartridge or canister of powdered insecticide, referred to below. When the cartridge or canister of insecticide is inserted, the gun opens it automatically, while it may be removed without loss of material, thus enabling the operator to change from one preparation to the other.

The new, quick and easy way of using insecticides and fungicides in the cartridge. Killing many bugs; preventing certain blights.

The following is a list of preparations packed in form suitable for use in the Key Gun:

	Price per canister
Bordeaux Arsenate	\$0.15
Lime Sulphur15
Hellebore20
Price of Gun	3.00

A simple and complete spray calendar is packed with each gun.

B. D. SHAKER

For applying dry insecticides, such as Bug Death, Slug Shot, Paris Green, etc.; made of tin; practical and durable. P. P. weight, 3 lbs., 75c.

PARIS GREEN SHAKERS

Tin. For dusting vegetables, potatoes, small fruits and shrubbery, 65c. each. P. P. weight, 2 lbs.

Farmers' Favorite. (See cut.) Large double-action affair, \$4.00 each. P. P. weight, 4 lbs.

DICKEY DUSTER

Excellent for distributing Bug Death, Slug Shot, etc. Price, 60c. P. P. weight, 1 lb.

CHAMPION GUN

This machine will distribute dry insecticides, covering one or two rows at one time. Will save its price in material used in one season.

Price, \$12.00. P. P. weight, 8 lbs.

WOODASON HAND BELLOWS

	P. P. Wt.	
Large double cone; each.....	5 lbs.	\$6.50

AUTOMATIC COMPRESSED AIR SPRAYER

Parcel Post Weight, 2 lbs.

This is the grandest hand sprayer ever offered, very easily operated, especially desirable for ladies' use.

Tin....each, \$1.25 | Brass....each, \$2.25

CYCLONE HAND SPRAYERS

Similar to the automatic, except they do not have the automatic air reservoir attachment. P. P. weight, 1 1/2 lbs.

No. 112, Tin, large, 60c.; Midget Tin, small, 35c. No. 114, Brass, \$1.25.

BUCKET SPRAY PUMP

Success Pump

These are made entirely of brass, except the foot rest and hand grip. The prices below do not include bucket, but include 3 1/2 feet of 3/8-in. hose and nozzle.

No. 256. Success (with-out bucket fastener), \$8.00. P. P. Wt., 7 lbs.

No. 689. Perfect Success (with bucket fastener), \$8.50. P. P. Weight, 9 lbs.

No. 22 BINKS COMPRESSED AIR SPRAYER

Galvanized steel tank, 5 gals. capacity. Brass pump with a patent clamping device, equipped with 3 feet of hose, spray nozzle, shut-off cock and shoulder strap.

P. P. Wt., 15 lbs. Price, \$8.50.

No. 327 1/2 Myers' Bucket Pump

This is a double brass chamber arrangement, and fills the want of those desiring a medium-priced sprayer. Price, \$6.50. P. P. weight, 9 lbs.

No. 3 Paragon Sprayer

THE PARAGON SPRAYER

Especially desirable for the reason that it is not necessary to strain the material before pouring it into the reservoir, although we recommend that this be done; guaranteed to give absolute satisfaction. Excellent for applying whitewash or paint. No. 0. Capacity, 3 gallons; equipped with 4 ft. hose, one 3-ft. extension pipe and 2 spray nozzles. Price, \$15.00.

No. 1. With a 5-gal. reservoir, 5 ft. of hose and 2 extension pipes, \$19.00.

No. 3. Equipped with a 12-gal. tank mounted on a truck, three 2 1/2-ft. extension pipes, 2 nozzles and 10 ft. of hose, \$26.00.

No. 4. Mounted on a two-wheel truck; equipped with 10 ft. of extension pipe, 20 ft. of hose and 2 nozzles. 25-gal. barrel, complete, \$33.00.

Bucket Washers for Paragon Sprayers, 35c. each.

MICHELL'S SPRAYING APPARATUS

GOULD SPRAY PUMPS

This make of spray pump has been favorably regarded among gardeners, farmers and fruit growers for years.

GOULD'S MONARCH

2-Cylinder Hand Power Pump (Fig. 1506).

This equipment is designed to be mounted on a platform for stationary use or for transportation on a wagon, sled or other means; it is probably the best of its class and is a pump that will last a lifetime with reasonable care. Plain Pump. No. O, price, \$50.60.

Outfit C—Equipped with 5-ft. suction hose and strainer and 1 lead 15 ft. $\frac{1}{2}$ in. special spray hose and 1 Mistry Jr. Nozzle. Price, \$62.50.

Outfit D—Same as Outfit C, except the equipment is 2 leads of hose and 2 nozzles. Price, \$70.85.

Pomona. No. 1100. Plain barrel pump. \$29.70.

Pomona. No. 1100. Outfit C, with agitator, 15 ft. $\frac{1}{2}$ in. special spray hose and 1 Mistry Jr. Nozzle. Price, \$38.15.

Pomona. No. 1100. Outfit D, with agitator and 2 15-ft. leads of special $\frac{1}{2}$ -in. spray hose and 2 Mistry Jr. Nozzles. Price, \$46.60.

Gould's Fruitall. Fig. 1188. Plain barrel pump, \$16.20.

Gould's Fruitall. Fig. 1188 (Outfit C), with agitator and 1 15-ft. lead of $\frac{1}{2}$ -in. special spray hose and 1 Mistry Jr. Nozzle. \$22.00.

Gould's Fruitall. Fig. 1188 (Outfit D), with agitator and 2 15-ft. leads of $\frac{1}{2}$ -in. special spray hose and 2 Mistry Jr. Nozzles. \$27.80.

Gould's Standard. Fig. 905 $\frac{1}{2}$. Plain barrel Pump. \$24.00.

Gould's Standard. Fig. 905 $\frac{1}{2}$ (Outfit C), without agitator, but with strainer and 1 15-ft. lead special spray hose and 1 Mistry Jr. Nozzle. \$30.35.

Gould's Standard. Fig. 905 $\frac{1}{2}$ (Outfit D), same as Outfit C, but equipped with 2 15-ft. leads of hose and 2 nozzles. Price, \$38.80.

Duplex Mistry (2 nozzles).....	2 lbs.	3.20

For $\frac{3}{4}$ -in. connections add 50c. to the above nozzle prices.

THE ROBERTSON POTATO SPRAYER

This is probably the first successful hand sprayer that distributes in a systematic fashion a spray solution on the top and underneath the foliage of potato vines and other plants. It is made of galvanized iron, in a substantial manner, and the reservoir is of liberal size; it may be used for general spraying in the vegetable and flower garden as well as elsewhere. Price, \$1.50.

THE KIRKE FEEDER

Made to accommodate cartridges of various kinds, containing fertilizer and insecticide ingredients, each separate as below.

	Each.	Doz.
Nickel Cartridge Holder.....	\$3.00	
Angle Worm Cartridges.....	.80	\$9.00
Nicotine Cartridges35	3.75
Salt Cartridges15	1.20

EXTENSION PIPES, ETC.

For reaching into trees; $\frac{3}{8}$ -inch threads.
 Bamboo, lined, 10 ft.....\$6.50
 Galv. Iron, 2 ft., P. P. weight, 6 ozs... .45
 Brass, 2 ft., P. P. weight, 8 ozs..... .60
 Pet Cock, for extension pipes..... .75
 Paragon Extensions, 2 $\frac{1}{2}$ ft., 50c. each.
 Parcel post weight, 12 ozs.

THE AUTO-SPRAY

It operates with compressed air. Safe and efficient. Liquid capacity, 4 gallons; pressure capacity, 40 lbs. The Brown Auto-Spray is probably the first real successful compressed air sprayer ever put on the market. Previous to its introduction there were other makes, some of them still being offered for sale. We have had a wide and varied experience with the different ones, and after personal tests and noting the experiences of our customers, finally adopted this make. They will successfully spray bushes, shrubbery and trees, the latter with the use of extension pipes. The brass tank sprayer is the best, as corrosive solutions can be used in it without injuring the same. Auto-Sprayers can be sent via parcels post; weight, 16 lbs.

Auto-Spray in Operation

No. 1-B. Brass. Equipped with hose and Auto-Pop Attachment, \$11.00.

No. 1-D. Galvanized Iron. Equipped with hose and Auto-Pop, \$7.50.

Auto-Pop Nozzle Attachment controls the flow instantly by a pressure of the hand. When Auto-Pop Attachment is purchased separately, \$1.50 each, without hose; with hose, \$2.00. P. P. Weight, 1 lb.

COPPER STRAINER

For straining whitewash, spraying material, etc. The neck is of the correct size to fit into the reservoir of an auto-spray, which allows both hands to be free when using it. \$1.50 each. P. P. Weight, $\frac{3}{4}$ lb.

FLOWER BED FENCING

For putting around beds, lawns, etc. Any length desired up to 150 running ft.
16 in. Less than 150 ft. roll, 20c. per ft.
16 in. In roll lots, 150 ft., 16c. per ft.
22 in. Less than 150 ft. roll, 25c. per ft.
22 in. In roll lots, 150 ft., 19c. per ft.

Continuous Wire Trellis

Excellent for training vines of all kinds up porch verandas, pergolas, etc. Thoroughly galvanized and well made.

Any length desired up to 150 running feet.
13 in. wide, less than 150 ft. rolls, 20c. per ft.
13 in. wide, in roll lots, 150 ft., 16c. per ft.
19 in. wide, less than 150 ft. rolls, 25c. per ft.
19 in. wide, in roll lots, 150 ft., 19c. per ft.

CARNATION SUPPORTS

The Richmond, shown below, is the most popular support on the market. Can be put together in minute and is always satisfactory; 29 in. high.

GRAPE PROTECTING BAGS

Thousands of bunches of grapes are wasted annually because they are not protected against the ravages of insects, birds, etc. Michell's Improved Grape Bags are economical, easily attached and last a season. The fruit ripens just as readily in them as it does in the open. The bags should be attached when the grapes are the size of a pea prior to which it is suggested that they be sprayed (even though not affected) against blight or fungus, the bags should be left attached until the fruit is ready to harvest.

If desired by mail please add to the prices below as noted.

Peat, Orchid. Pk., 40c.; \$1.25 per bu.; bbl. bag, \$3.00.
Pruning Compound. Per qt., 85c.; \$2.25 per gal.
Sand. For propagating. Per qt., 10c.; 30c. per pk.; bu., \$1.00; \$3.00 per bbl.
Shadeline. For shading greenhouse glass. 5 lbs., \$1.25; 10-lb. cans, \$2.50.
Soil. For potting. Qt., 10c.; 20c. per ½ pk.; pk., 30c.; \$1.00 per bu.; bbl., \$3.00.
Toothpicks. Plain, box, 7c.; 35c. for 6.
Toothpicks. Wired, 45c. 1000; 10,000, \$3.50.
Toothpicks. 6-inch, wired, green; per 375, 30c.; \$2.00 per 3000.
Tree Paint (Target Brand). Qt., 85c.; \$2.25 per gal.
Tin Foil. In 5- and 6-inch widths, in 1-lb. pkgs. and in 5-lb. rolls, 5-in. wide. 35c. per lb.; 5 lbs. for \$1.50.
Violet and Green Foil. 60c. per lb.
Weed Killer. Michell's. Qt., 55c.; 90c. per ½ gal.; gal., \$1.75; \$6.75 per 5 gals.; 30 gals., \$33.00; \$50.00 for 50 gals.
Weed Killer. Herbicide. 60c. qt.; gal., \$1.75; \$7.00 per 5 gals.
Fairmount Weed Killer. ½ gal., 90c.; \$1.50 per gal.; 5 gals., \$6.25; \$11.50 per 10 gals.; 50-gal. barrel, \$45.00.
Zementine. For whitewashing and shading. 2 lbs., 35c.; \$1.45 per 10 lbs.
Zinco. For destroying soot and its effects. 60c. per pkg.

Alphano Inoculant. A soil bacteria to use in connection with growing legumes. 1 -acre size, net wt., 2 lbs., \$1.00; 10-acre size, net wt., 20 lbs., \$8.00.

Ashes (Hard Wood). Apply 1000 lbs. per acre. For top dressing lawn and grass fields, in early spring or late fall. 25 lbs., 85c.; \$1.50 per 50 lbs.; 100 lbs., \$2.50; \$4.50 per 200-lb. sack; 1,000 lbs., \$20.00; \$37.50 per ton.

Asparagus Fertilizer (Michell's). A mixture that promotes the root and top growth. Apply 800 lbs. per acre. 25 lbs. for \$1.25; \$2.00 for 50 lbs.; 100 lbs. for \$3.75; \$6.50 for 200 lbs.; ton, \$55.00.

Bon Arbor. A concentrated chemical fertilizer; used in liquid form. Per 8 oz., 30c.; 60c. per lb.; 5 lbs., \$2.75.

Blood (Dried). For indoor culture of flowering plants, like roses, carnations, etc., its chief element being nitrogen. 5 lbs., 75c.; \$1.25 per 10 lbs.; 25 lbs., \$2.75; \$5.00 per 50 lbs.; 100 lbs., \$9.00; \$17.50 per 200 lbs.

Bone Flour. Apply 600 lbs. per acre. Very fine, effective almost immediately; can be used for indoor or outdoor purposes. 25 lbs., \$1.50; \$2.75 per 50 lbs.; 100 lbs., \$5.00; \$9.50 per 200 lbs.

Bone Meal (Michell's Special Grade). Unusually rich in nitrogen and phosphoric acid, the two principal plant foods. We recommend this especially for lawns, gardens and greenhouses, or any purpose where a high-class fertilizer counts. Apply 800 to 1000 lbs. per acre. 3 lbs., 25c.; 35c. for 5 lbs.; 10 lbs., 60c.; \$1.35 for 25 lbs.; 50 lbs., \$2.50; \$4.50 per 100 lbs.; 200 lbs., \$8.50; \$38.50 per ½ ton; ton, \$75.00.

Chrysanthemum Manure (Thomson's Special). Especially recommended and used by the leading private gardeners of England and America. Per 28-lb. sack, \$4.00; \$8.00 per 56-lb. sack.

Clay's Fertilizer. An English chemical fertilizer, for forcing greenhouse plants and vegetables. It can be used in either dry or liquid form. 28 lbs., \$3.50; \$9.50 per 56 lbs.; 112 lbs., \$14.00.

Climax Lawn Sand. A unique combination of carefully dried and finely ground chemicals. Destroys weeds in lawns. 3½-lb. can, 60c.; \$1.10 per 7-lb. can; 14-lb. can, \$1.75; \$3.00 per 28-lb. pkg.; 56-lb. pkg., \$4.75; \$9.25 for 112 lbs.

Cotton Seed Meal. Apply 800 lbs. per acre. Exceedingly rich in potash and ammonia, making it excellent for use as a grass and grain fertilizer. Price on application.

Cow or Cattle Manure (Shredded). Convenient to handle, making it possible for everyone to get this usually scarce article at all times. Apply 1000 lbs. per acre. \$3.50 per 100 lbs.; 500 lbs., \$16.25; \$27.50 per 1000 lbs.; ton, \$54.00.

Hay and Pasture Grass Fertilizer (Michell's). A splendid mixture for top dressing wheat, rye, timothy and grass fields. Apply 800 to 1000 lbs. per acre. 25 lbs. for \$1.00; \$1.75 for 50 lbs.; 100 lbs., \$3.25; 200 lbs. for \$6.00; \$27.50 per 1000 lbs.; per ton, \$52.50.

Hog Manure (Pulverized). Put up and sold in 100-lb. bags only; splendid for forcing vegetables and flowering plants, increasing size and yield. Per 100 lbs., \$3.50; \$16.25 for 500 lbs.

Horn Shavings. Used principally for mixing in potting; especially valuable in chrysanthemum growing. 5 lbs., 75c.; \$1.20 for 10 lbs.; 25 lbs., \$2.25; \$4.00 for 50 lbs.; 100 lbs., \$7.00.

Humus (Alphano Prepared). An excellent article to incorporate with poor soil in the garden, greenhouse or in potting plants. When used in garden work, the ground should be covered with ½ to 2 inches of Humus and spaded in. 5 lbs., 35c.; 60c. for 10 lbs.; 25 lbs. for 90c.; \$2.75 per 100 lbs.; 500 lbs., \$12.00; \$18.00 per 1000 lbs.; 2000 lbs., \$32.50. (Special price f. o. b. Alphano, N. J.)

Kainit. For top dressing; asparagus beds, etc. Price on application.

Land Plaster. Used for top dressing newly plowed land prior to harrowing; also for sweetening the soil on lawns and fields. Apply 1500 to 2000 lbs. per acre. 40c. for 10 lbs.; 25 lbs., 60c.; \$1.00 for 50 lbs.; 100 lbs., \$1.75; \$3.25 for 200 lbs.; ton, \$25.00.

Lime (Hydrated or Powdered). Promotes growth and gives the grass a rich color. Apply one ton per acre. Per 125-lb. sack, \$2.50; \$9.00 per 500 lbs.; 1000 lbs., \$16.00; \$30.00 per ton.

Limestone (Pulverized). For applying on sour or wornout soils at the rate of 1 ton per acre. Put up in 100-lb. bags, \$1.75 per bag; 500 lbs., \$6.50; \$11.00 per 1000 lbs.; ton, \$20.00.

Limoid. Made from pure lump lime, thoroughly hydrated. 10-lb. pkg., 40c.

Manure (Fresh Horse, Stockyard and Cow). At short notice we can usually supply first-class horse, cow and stockyard manure in carload lots only. Prices on request.

Mulford's Culture. For inoculating Clovers and other legumes. When ordering, please state for what crop you desire to use it. Trial size for beans and peas, 25c. Garden size (¼ acre), 50c.; 1-acre size, \$1.50; 5-acre size, \$5.00.

Muriate of Potash. Apply 100 to 150 lbs. per acre, usually with other fertilizers. Excellent for potatoes, corn, grains, etc. Analysis, equal to 50 per cent. actual potash. 5 lbs., \$1.25; \$2.00 per 10 lbs.; 25 lbs., \$4.00; \$12.00 per 100 lbs.

Nitrate of Soda. Apply 100 to 150 lbs. per acre, mixing with land plaster or other fertilizers to render application more easy. Use only after plants are above ground. If used in liquid form dilute 2 ozs. to 1 gal. of water and do not apply oftener than twice a week. 1 lb., 20c.; 75c. per 5 lbs.; 10 lbs., \$1.30; \$2.50 per 25-lb. bag; 50-lb. bag, \$4.25; \$8.00 per 100 lbs.

Phosphate for Corn (Michell's). Apply 800 lbs. per acre. This contains the necessary ingredients to produce a bumper crop of corn. 25 lbs. for \$1.00; \$1.75 for 50 lbs.; 100 lbs. for \$3.25; \$5.50 for 200 lbs.; per ½ ton, \$26.00; \$50.00 per ton.

Phosphate, High-Grade Acid Tennessee or South Carolina Rock. 14 per cent. Apply 1000 lbs. per acre. Used for mixing with other fertilizers to increase the phosphoric acid analysis. In 200-lb. sacks only, \$5.00; \$21.00 per ½ ton; per ton, \$40.00.

Phosphate, Michell's High-Grade Ammoniated. For all vegetable crops, grains, grass, etc. Apply 800 to 1000 lbs. per acre broadcast. 5 lbs., 35c.; 60c. per 10 lbs.; 25 lbs., \$1.25; \$2.00 per 50 lbs.; 100 lbs., \$3.50; \$6.50 per 200 lbs.; ton, \$57.50.

Plant Food. A highly concentrated chemical fertilizer for house use. Michell's, 20c. per 6-oz. pkg. Bowker's, 4-oz. pkgs., 25c.; 35c. per 12-oz. pkg. Allow for postage if wanted by mail.

Plant Life (Zenke's). A liquid plant food, tonic and fertilizer. Per 8 oz., 25c.; 90c. per qt.; ½ gal., \$1.65; \$3.25 per gal.

Potato Manure (Michell's). Apply at the rate of from 800 to 1000 lbs. per acre. 25 lbs., \$1.50; \$2.25 per 50 lbs.; per 100 lbs., \$3.75; \$7.00 per 200 lbs.; per ½ ton, \$32.50; \$62.50 per ton.

Poudrette (Native Guano). Apply 1000 lbs. per acre. Extensively used for garden, lawns, in making compost and in fact wherever a good, quick acting fertilizer is wanted. 25 lbs., \$1.25; \$1.75 per 50 lbs.; 100 lbs., \$2.75; \$4.25 per 200 lbs.; 1000 lbs., \$20.00; \$35.00 per ton.

Salt. For asparagus beds and putting on walks and roads to kill weeds. Apply 800 lbs. per acre in early spring. 25 lbs. for 75c.; \$1.25 for 50 lbs.; \$2.00 per 100 lbs.; 200 lbs., \$3.50; \$30.00 per ton.

Sheep Manure (Wizard Brand). Apply 1000 lbs. per acre. For garden, lawn or greenhouse use. 2 lbs., 20c.; 35c. per 5 lbs.; 10 lbs., 60c.; \$1.00 per 25 lbs.; 50 lbs., \$1.75; \$3.50 per 100 lbs.; 500 lbs., \$16.25; \$27.50 per 1000 lbs.; per ton, \$54.00.

Soot (Imported Scotch). This is used principally for bringing a good healthy color into the foliage of chrysanthemum and other greenhouse plants. Price on application.

Sulphate of Ammonia. Apply 75 to 100 lbs. per acre only with other fertilizers deficient in nitrogen. Price on application.

Sulphate of Potash. Apply 100 to 125 lbs. per acre, usually with other fertilizers. Price on application.

Tankage. For roses, etc., under glass; similar to dried blood. \$2.00 per 50 lbs.; 100 lbs., \$3.75; \$6.50 per 200 lbs.; ton, \$60.00.

Thomson's Special Flower, Vegetable and Vine Manure is extensively used wherever it is desired to force flowers or vegetables. 28 lbs., \$3.00; \$5.75 per 56 lbs.; 112 lbs., \$10.00.

Tobacco Stems. For fumigating, mulching and fertilizing; an excellent top dressing for lawns in winter. 40c. for 5 lbs.; \$1.00 per bu.; per bbl. sack, \$1.75; in large bales, at 2½c. per lb.; \$17.00 per ½ ton; per ton, \$32.00.

Wheat Fertilizer (Michell's). For grass and grain crops. Apply 800 lbs. per acre. 25 lbs. for \$1.10; \$1.75 for 50 lbs.; 100 lbs., \$3.00; \$5.00 for 200 lbs.; ½ ton, \$23.75; \$45.00 per ton.

Michell's Insect Destroyers, Etc.

35

DIRECTIONS FOR USING ANY OF THE FOLLOWING WILL BE FOUND ON EACH PACKAGE, OR WE SHALL BE PLEASED TO GIVE INFORMATION BY MAIL OR OTHERWISE.

Ant Exterminator (Magic). Per $\frac{1}{4}$ lb., 20c.; 40c. per $\frac{1}{2}$ lb.; lb., 75c.; \$3.00 per 5 lbs.

Ant Exterminator (Zenke's). An effective liquid form of this important insecticide. 8 oz., 25c.; 85c. per qt.; $\frac{1}{2}$ gal., \$1.75; \$3.50 per gal.

Aphine, $\frac{1}{4}$ pt., 25c.; 40c. per $\frac{1}{2}$ pt.; per pt., 65c.; \$1.00 per qt.; gal., \$3.00.

Aphis Punk. Per pkg., 85c.; \$7.00 per 12 pkgs.

Arsenate of Lead (Paste). Per lb., 40c.; \$1.65 per 5 lbs.; 10 lbs., \$3.00; per 25 lbs., \$6.00; 50 lbs., \$10.50; \$19.50 per 100 lbs.

Fungicide (Zenke's). For various forms of fungus. Per 8 oz., 25c.; 85c. per qt.; $\frac{1}{2}$ gal., \$1.75; \$3.50 per gal.

Fungine. Per $\frac{1}{2}$ pt., 40c.; 65c. per pt.; qt., \$1.00; \$3.00 per gal.

Getz-There Soap. Per 2 lbs., 60c.; \$1.75 per 8 lbs.; 50 lbs., \$7.00.

Grape Dust. Per 5 lbs., \$1.00; \$1.85 per 10 lbs.

Hellebore. Per $\frac{1}{4}$ lb., 25c.; 40c. per $\frac{1}{2}$ lb.; lb., 70c.; \$3.00 per 5 lbs.

Imp Soap Spray. 65c. per pt.; per qt., 85c.; \$2.75 per gallon; 5 gals., \$12.00; \$22.50 per 10 gallons.

Insecticide (Zenke's General Greenhouse). For the destruction and control of many pests. Per 8 oz., 25c.; 85c. per qt.; $\frac{1}{2}$ gal., \$1.00; \$1.75 per gal.

IXL Compound. Per gal., \$6.00; \$27.50 for 5 gals.

Kerosene Emulsion (Liquid). 70c. per qt.; per gal., \$1.75.

Lemon Oil Insecticide. Per $\frac{1}{2}$ pt., 35c.; 60c. per pt.; qt., \$1.00; \$1.75 per $\frac{1}{2}$ gal.; gal., \$3.00; \$12.00 per 5-gal. keg.

Lime Sulphur. Per qt., 45c.; 75c. per $\frac{1}{2}$ gal.; gal., \$1.25; \$4.00 per 5 gals.; 30-gal. bbls., 35c. gal.; 50-gal. bbls., 30c. gal.

Lime Sulphur (Dry Powder Form). Per lb., 35c.; \$1.50 per 5 lbs.; 10 lbs., \$2.00; \$4.00 per 25 lbs.; 100 lbs., \$12.50.

Mo Lo. A preparation for ridding gardens and lawns of moles and field mice. Pkg., 25c.

Nico-Fume (Liquid). $\frac{1}{4}$ lb., 65c.; \$2.00 per lb.; 4 lbs., \$7.50; \$14.50 per 8 lbs.

Nico-Fume Paper. Per box, 24 sheets, \$1.25; \$5.00 per 144 sheets; 288 sheets, \$9.50.

Nikoteen. Per oz., 40c.; 60c. per 1 $\frac{3}{4}$ oz.; 8 oz., \$1.25; \$2.25 per pt., per $\frac{1}{2}$ gal. (4 lbs.), \$7.50; per gal. (8 lbs.), \$13.50.

Paris Green. Per $\frac{1}{4}$ lb., 20c.; 35c. per $\frac{1}{2}$ lb.; lb., 60c.; \$1.20 per 2 lbs.; 5 lbs., \$2.90; \$7.60 per 14 lbs.

Protexol (See Carbolineum). For preserving wood, etc.

Pyrox (Bowker's). Per lb., 45c.; \$1.75 per 5 lbs.; 10 lbs., \$3.00; \$6.25 per 25 lbs.; 50 lbs., \$11.00; \$20.00 per 100 lbs.; 300 lbs., \$57.00.

Rat Corn. For destroying rats and mice. 25c., 50c. and \$1.00 per box.

Readeana Rose Bug Exterminator. Trial bottle, 30c.; 50c. per 8 ozs.; 24 ozs., \$1.00; \$4.00 per gal.

Scalecide. Per qt., 70c.; \$1.85 per gal.; 5 gals., \$7.25; \$12.50 per 10 gals.; 30-gal. bbl., \$31.00; \$46.00 per 50 gal.

Scale Destroyer (Soluble Oil). Qt., 60c.; 85c. per $\frac{1}{2}$ gal.; gal., \$1.50; \$6.25 per 5 gals.

Shoo Fly. Per qt., 45c.; \$1.25 per gal.

Slug Shot. Per lb. canister, 20c.; 60c. per 5 lbs.; 10 lbs., \$1.00; \$2.35 per 25 lbs.; 100 lbs., \$8.75. Barrel lots in bulk (250 lbs.), 8 $\frac{1}{2}$ c. lb.

Sulco-V. B. Will control San Jose and other scale insects, and many species of plant lice and fungus disease. Pt., 40c.; 75c. per qt.; $\frac{1}{2}$ gal., \$1.35; \$2.50 per gal.; 5 gals., \$8.50; \$15.00 per 10 gals.; $\frac{1}{2}$ bbl. (about 30 gals.), \$1.00 per gal.; bbl. (about 50 gals.), 90c. per gal.

Sulphate of Copper. Per lb., 20c.; 90c. per 5 lbs.; \$1.60 for 10 lbs.

Sulphur Candles. Large: 25c. each; per doz., \$2.50. Small: 15c. each; per doz., \$1.50.

Sulphur (Flowers). Per lb., 15c.; 60c. per 5 lbs.; 10 lbs., \$1.15; \$2.25 per 25 lbs.; 100 lbs., \$8.00.

Sulpho Tobacco Soap. Per 3-oz. pkg., 15c.; 25c. per 6-oz. pkg.

Tobacco Dust (Special Dusting or Fumigating). 15c. per lb.; 5 lbs., 50c.; 90c. per 10 lbs.; 25 lbs., \$2.00; \$3.50 per 50 lbs.; 100 lbs., \$6.00.

Tobacco Soap (Sulpho). 3 ozs., 15c.; 25c. per 6 ozs.

Tobacco Stems. Per lb., 15c.; 40c. per 5 lbs.; bushel, \$1.00; \$1.75 per bbl. sack; large bales at 2 $\frac{1}{2}$ c. per lb.; $\frac{1}{2}$ -ton, \$17.00; \$32.00 per ton.

Thrip Juice (Hammond's No. 2). Pt., 85c.; \$1.50 per qt.; gal., \$4.00.

Tree Tanglefoot. Per lb., 50c.; \$1.45 per 3-lb. can.; 10 lbs., \$4.50; \$8.75 per 20 lbs.; 25 lbs., \$10.50.

Vermine. A soil sterilizer and germicide; will destroy worms, maggots, etc. Per $\frac{1}{4}$ pt., 25c.; 40c. per $\frac{1}{2}$ pt.; pt., 65c.; \$1.00 per qt.; gal., \$3.00.

Worm Destroyer (Michell's Brand). For using in gardens, on lawns, etc. (Price on application).

Worm Destroyer (Carter's Brand). F. o. b. Philadelphia: Per 100 lbs., \$12.00; \$110.00 per 1000 lbs.; ton, \$210.00. F. o. b. Boston: Per 100 lbs., \$10.50; \$200.00 per ton.

Worm Eradicator (Reade's Electric). 8 ozs., 50c.; \$1.00 per 24 ozs.; gal., \$4.00.

Zenke's Insecticide (See Insecticide).

Zenoleum. $\frac{1}{2}$ pt., 35c.; 75c. per qt.; $\frac{1}{2}$ gal., \$1.25; \$2.00 per gal.; 5-gal. can., \$9.50.

CARBONDALE HYDROMETERS

These are highly recommended by the Pennsylvania State Department of Agriculture for testing the gravity of Lime Sulphur solution. One should be in the hands of every man who uses this material. Price, \$1.25. (Postpaid, \$1.35.) With directions.

LAMPS for vaporizing nicotine solutions, 80c. each.

NOTE.—Earthenware cannot be packed for shipment by Parcel Post.

MICHELL'S LIQUID WEED KILLERS

An effective combination of high-grade chemicals which, diluted in water, destroys the roots as well as the tops of all weeds and vegetation to which it is applied.

One gallon diluted is sufficient to cover 100 to 125 square yards; and one or two applications are sufficient for an entire season. Does not injure marble, cement or fencing. The best time for applying is just after a rain.

PRICES OF MICHELL'S WEED KILLER

Per quart—makes 41 quarts.....	\$0.55	Per 5-gal. can, makes 205 gals.	\$6.75
Per ½ gallon—makes 20½ gals..	.90	Per 30-gal. can, makes 1230 gals.	33.00
Per gallon—makes 41 gals.....	1.75	Per 50-gal. can, makes 2050 gals.	50.00

HERBICIDE

This preparation is a thoroughly proven Weed Exterminator. Will not stain wood or stone work. It dilutes readily in water and can be applied with a sprinkling can or in a large area with a watering cart. For clay and sand tennis courts it is a perfect preparation. One part Herbicide dilutes to 40 parts of water, either hot or cold, clean or dirty. A gallon of Herbicide is capable of treating 120 square yards of surface.

PRICES OF HERBICIDE

	Price		Price
1 quart makes 41 quarts	\$0.60	5 gallons makes 205 gallons	\$7.00
½ gallon makes 20½ gallons...	1.00	25-gal. bbl. makes 1025 gallons..	27.50
1 gallon makes 41 gallons	1.75	50-gal. bbl. makes 2050 gallons..	50.00

FAIRMOUNT WEED KILLER

This is the original brand of liquid weed killer and is still in great demand; it is diluted and applied with a watering can, one gallon of material effectively treating about 125 square yards.

DILUTION

		PRICE
½ gallon makes 25 gallons liquid.....	Per ½ gallon,	\$0.90
1 gallon makes 50 gallons liquid.....	Per gallon,	1.50
5 gallons makes 250 gallons liquid.....	Per 5 gallons,	6.25
10 gallons makes 500 gallons liquid.....	Per 10 gallons,	11.50
50 gallons makes 2500 gallons liquid.....	Per 50-gal. bbl.,	45.00

MICHELL'S CLIMAX LAWN SAND

FOR USE ON LAWNS AND GRASS PLOTS

"Climax Lawn Sand" is a unique combination of finely ground chemicals, which, when sprinkled over the grass, possess the remarkable property of destroying Moss, Chickweed, Plantains, Dandelion, and all other weeds on Lawns, Tennis Courts, Golf Greens, etc., at the same time promoting the growth of the finer grasses.

"Climax Lawn Sand" may be applied any time during the growing season of the year, namely, from beginning of April to the end of October.

The lawn must be absolutely dry; by that is meant that no rain or dew must be visible on the grass.

Ten to twelve a. m. during the months of April, May and October, nine to twelve a. m. during June, July, August and September are the best hours for application.

Only apply in fine weather when the temperature is fairly high and when no rain appears likely for a day or two. This is most important.

After applying, the weeds blacken and die; the grass usually also becomes blackened and may remain so for a few days, but it quickly recovers its color, and young growths appear on the bare spots previously occupied by the weeds.

Should the weather be very hot and dry, the lawn should be thoroughly watered at the expiration of 48 hours after the application.

It acts as one of the most powerful fertilizers for grasses if applied as a top-dressing in the early spring. For top dressing as a fertilizer apply ¼ ton per acre.

QUANTITY REQUIRED AS A WEED DESTROYER

3½ lbs. will dress	150 square feet.	\$0.60	
7 lbs. will dress	250 square feet.	1.10	Allow for
14 lbs. will dress	500 square feet.	1.75	Postage
28 lbs. will dress	1000 square feet.	3.00	if desired
56 lbs. will dress	2000 square feet.	4.75	by Mail
112 lbs. will dress	4000 square feet.	9.25	

MICHELL'S IMPROVED GRAPE BAGS

Thousands of bunches of grapes are wasted annually because they are not protected against the ravages of insects, birds, etc. Michell's Improved Grape Bags are economical, easily attached and last a season. The fruit ripens just as readily in them as it does in the open. The bags should be attached when the grapes are the size of a pea prior to which it is suggested that they be sprayed (even though not affected) against blight or fungus, the bags should be left attached until the fruit is ready to harvest.

If desired by mail please add to the prices below as noted.

	Weight for mail per 100	100	1000
2 lb. size	1½ lbs.	\$0.55	\$5.00
3 lb. size	1½ lbs.	.65	5.50
4 lb. size	1½ lbs.	.70	6.00

ERADO WEED GUN

As handy as a cane, which it resembles. Fill the reservoir, which holds about 2 quarts of liquid, with Herbicide or Michell's Weed Killer, diluted. It will destroy weeds of all kinds in lawns without hurting the grass. Press the sharp point of the gun into the heart of the weed until the flat stay pieces touch the ground, when a quantity sufficient to kill is discharged into the heart of the plant which is destroyed for all time. Price, \$1.25. Galvanized iron. (See cut.) Parcel Post weight, 2 lbs.
